Academic Training

Full Stack Web Developer.
Henry Bootcamp // October 2021 - March 2022

+800 hours of theoretic-practical coursework. Training on: Front-end & Back-end
technologies

EXPERIENCE // ACADEMIC PROJECT

Enero 2022 / Marzo 2022

Javascript Full Stack Teacher Assistant, Henry Bootcamp

Guide students through the first steps of the course
Help solve exercises through slack
Give valuable lessons to students.
Propose ideas to improve the Bootcamp process

(Full Stack) Food App. "Recipers Site" (Feb 2022-Feb 2022) "Academic Project"

This Spa was the Individual Final project I made on the Bootcamp.

I worked as a Full Stack Web Developer:

Database: Postgre & Sequelize

Front End: CSS. HTML. React / Redux.

Back End: Express, NodeJs. Postman.

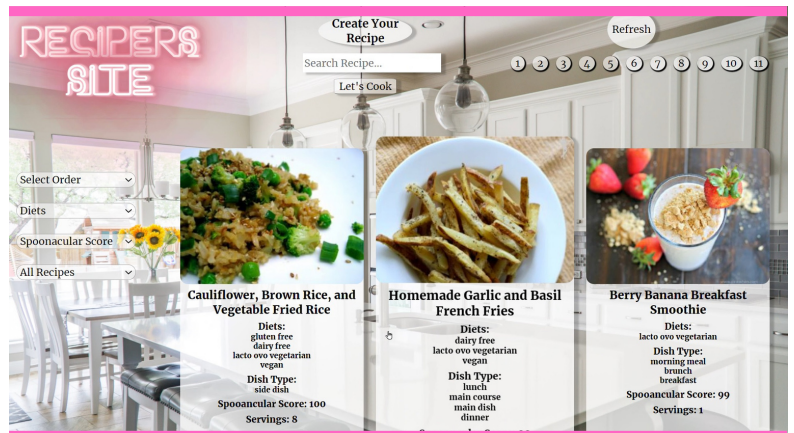

This SPA is about Food recipes. You can filter or search for recipes.

Create a recipe. See the details. Follow step by step.

Landing Page

MARCH 2022 – MARCH 2022

BACKEND (ACADEMIC PROJECT) * VIPETS WEB SITE *, HENRY BOOTCAMP

This Spa was the Final project we made as a group. I was working as a back developer. Using Node Mailer. Sequelize. NodeJs, etc.

This web app was inspired by a real urgency we can have with our pets. You can find maps with 24 clinics' attention & emergencies.

Make login/logout. Make reserves. Pay your visit with PayPal.

Make your profile, your pet profile. Add Photos. Search for lost Pets

On the landing page, you can watch a carousel with all Lost Pets, with the Phone number of the owner, in case you find it and want to contact him/her.

Also have a Qr Code generator for the pet's collar, with all the info of you and your pet, to make it easiest to find you.

Landing Page

Qr Generator

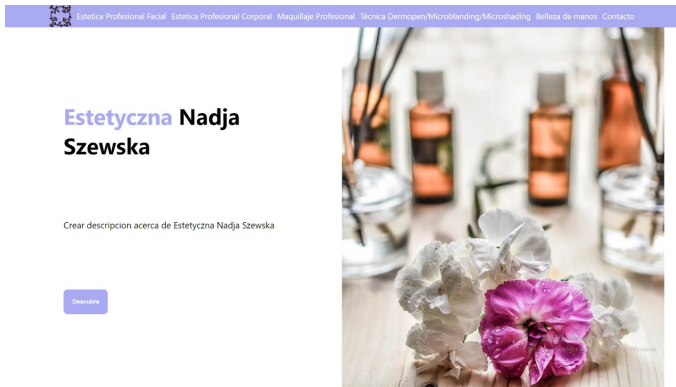

May 2022 SPA: "Estetyczna Nadja Szewska"

A website designed and developed for a personal brand.

- *Offers services as:
- *Professional Makeup
- *Aesthetic massages
- *Nails art
- *Body sculpture

This site was developed with NextJs. EmailJs. React..
